STRONGER MARKET.

Prices on All Grades Sold Satisfactory to Sellers.

Considerable Activity Reported in the Loose Market—Cash Quotations For Week.

The tobacco market was some stronger this week on all grades and prices were quite satisfactory to sellers. The marketing of the new crop is still being greatly delayed by the bad condition of the country roads, but stock is gradually accumulating in the warehouses and sales will greatly increase in a few weeks.

We quote the following prices for the week:

Common lugs, \$4 to \$4.50; medium lugs, \$4.75 to \$5.25; low leaf, \$5.50 to \$6.25; common leaf, \$6.50 to \$7.25; medium leaf, \$7.50 to \$9; no good leaf offered.

Receipts for the week, 340 hogheads; receipts for the year, 1960 hogheads. Sales for the week, 21 hogheads; rejections 3.

Much loose tobacco is being received and there is considerable activity along this line. About 90 per cent. of the crop in North Christian has been sold and nearly all under contract has been delivered. In South Christian the per cent. of sales is not so great.

CIVIL DOCKET.

Sizemore Will Case on Trial This Week.

The case of W. H. Sizemore and others against James Sizemore's administrator and others has been on trial for three days in the Circuit Court and was given to the jury yesterday afternoon. Plaintiffs seek to break the will of James Sizemore, deceased, who left his entire estate absolutely to his widow, who is now dead.

Bessie King and Lula Wells were each fined \$25 on a charge of keeping a bawdy house.

D. M. White, S. L. W. L., fined \$25.

The Jake Williams murder case will be called to-morrow.

Next week will be consumed in the trial of Commonwealth cases.

OPERA "ZAIDA"

Will be Presented at Bethel College To-night.

A rare musical treat is in store for those who attend the presentation of the opera "Zaida" at Bethel Female College this evening, by the young ladies of the college. The piece is a strong one and will be presented by amateur talent of an unusual order, with all the advantages of pretty costumes, a specially prepared stage and a chorus of pretty school girls. Admission 50 cents.

THREE MEN

Brought Before Grand Jury For Investigation of Case.

Tom Pettus, Andrew Kendrick and Herbert Davie, all colored, were brought into the city by Esq. T. F. Dixon, of Howell, yesterday, and were taken before the grand jury. The men were under suspicion of having robbed Esq. Dixon's store of two pairs of pants and a pair of overalls.

FISHER--SHELBY.

Bride-to-be Great-Granddaughter of First Governor of State.

Major Isaac Shelby, of Danville, Ky., announces the engagement of his daughter, Miss Laura Elizabeth Shelby, to George Kingsland Fisher, of St. Louis, Mo. The bride is the great-granddaughter of Isaac Shelby, the first Governor of the State.

FARRIS BILL.

Killed in the Senate Wednesday

By 22 To 15.

Hickman School Book Bill Suffers

The Same Fate The Same Day.

Frankfort, Ky., March 5.—The Senate met under the amended rule at 10 o'clock. Senator Richardson secured consent to call up his bill to allow the State Prison Commission to permit railroad companies to run tracks into the penitentiaries. The bill was adopted unanimously.

Senator Hickman, the champion of the School Book Bill, sought to secure the second reading and advancement of the bill passed by the House so that it might be placed in position for discussion and a vote on it. The Senate by a vote of 18 to 16 defeated the motion.

The Senate then took up the Bradley House Bill to repeal the tollgate raiders law of 1897. It was adopted by unanimous vote; it now goes to the Governor. The bill was introduced by Representative Bradley, of Hopkins County.

At 10:35 o'clock the Senate took up the Farris "County Unit" Local Option Bill, the first special order of the day. Senator Porter offered a substitute bill making it necessary to hold two elections to determine the question of local opinion in a county, authorizing the county to determine for itself whether it shall have the "County Unit" or vote by precinct.

The Porter substitute lost. The Farris bill went on its passage and was defeated by a vote of 22 to 15. The Carroll Asylum bill was taken up but not brought to a vote. Catron offered a substitute increasing the power of the local boards.

IN THE HOUSE.

The Weatherford bill, limiting the working day in mines to eight hours, came up for discussion.

Col. Colson offered a substitute, to make eight hours the conventional labor day, but allowing longer time contracts to be made. This was adopted. It, of course, practically killed the purpose of the Weatherford bill. The substitute passed. The only change it makes is to knock two hours off of the present conventional working day.

The reapportionment bill, Congressional, Judicial, Legislative and Senatorial, passed by a party vote, without discussion, all substitutes being defeated.

The bill protecting rabbits during the quail season, was defeated. The Conrad Bill, requiring non-residents to take out license to hunt in Kentucky, the license to cost \$25, was adopted.

TWO TURKEYS

Taken By Thieves and Accused Men Arrested.

Jim Black and Charles Winston, colored, who live near Howell, were arrested by Constable Frank Rives and lodged in jail here Wednesday. They are charged with the theft of some turkeys belonging to Dave Moore, colored.

Cook-Fox.

A license was granted Wednesday to Mr. M. C. Cook to wed Miss Gertrude Fox. The parties live near Johnson's, this county, and the wedding is scheduled to take place next Sunday.

ADMISSION, 50 CENTS.

INTO THE COURTS.

Law Question Raised in the Asylum Matter.

New Commissioners Enjoined From Succeeding Those Whose Terms Have Not Expired.

Messrs. Charles Knight, J. Burch Walker and R. W. Ware, the three Democratic Commissioners of the Western Asylum whose terms have not expired, have decided to resist in the courts the attempt of the Governor to remove them. They have been granted a temporary injunction by Judge Cook, restraining their successors, Messrs. Carroll, Chilton and Hill, from acting. The case will be heard Saturday March 15th.

Judge Jas. Breathitt is the principal attorney for the commissioners, who have asked the injunction. They claim that the statutes give the Governor no power to remove them and that they can only be removed under the law by impeachment proceedings in the regular way.

BRONAUGH-DURHAM.

Wedding of Well Known People Took Place Wednesday.

The marriage of Mr. Robert M. Bronaugh, of near Casky, and Miss Jimmie Durham, of the Edwards' Mill neighborhood, was solemnized Wednesday night at 8:30 o'clock by Elder H. D. Smith, of this city. The wedding took place at the home of Mr. Jas. P. Ferguson, uncle of the bride.

POPE-JONES.

Kirkmansville Man and Elkhorn Lady Married in Clarksville.

Mr. Walter Pope, the well known Kirkmansville wagon manufacturer, and Miss Willie Belle Jones, of Elkhorn, were married in Clarksville Wednesday.

ANOTHER

Fine Opera House Will Soon Be Erected.

The Elks To Be The Moving Spirit In The Enterprise.

With the opening of spring the erection of a new place of amusement will probably begin. The KENTUCKIAN is not in full possession of details, but has learned enough to state with almost absolute certainty that a New Opera House will be erected during the year. The Elks are the prime movers in the enterprise, and anything they take hold of generally goes through with a rush.

Last week this paper devoted about one and a half columns setting forth the great necessity of the organization of a Board of Trade or Commercial Club, and whilst this talked of movement may not be the outcome of anything contained in the article, yet it strikes us that if we are to have a Board of Trade its nucleus lies in the Elks Lodge.

Whilst we would not say anything in derogation of the other noble secret societies of the city, still we must say that the latest order instituted here seems to have in it that degree of life, enterprise and go-ahead-ness that is requisite to the upbuilding and progress of our city.

It is estimated that the prospective new place of amusement will cost \$30,000 or \$35,000. Several building sites have been considered but no one definitely fixed upon. The frontage required is to be 75 feet, with a depth of 127. The building is to show three stories and the auditorium is to be on the ground floor; to show three stories, the front will probably be built of rough or dressed stone. The building will be heated by steam or hot air radiators and lighted by electricity. All modern appliances and conveniences will, of course, be used, and everything used in modern up-to-date buildings of its character will be put in.

A Big Strike.

"The manufacturers have made a
strike to lower prices and P. C.
Ellis at Pembroke has followed
them up and cut prices accordingly
from 25 to 50 per cent on all under-
carriage goods and furniture in pro-
portion."

"Critic's Magazine for March
begins another of its important
features for the current year—the
reminiscences of Daniel C. Gilman,
who was for twenty-five years was
president of Johns Hopkins Uni-
versity. President Gilman created a
new type of University in
America, and one which has proved
its success by the great number of
scholars and distinguished men
which it has already produced by
its exact methods of study. "The
Launching of a University" tells
the story of the conception of the
idea, and the first steps in
gathering together the remarkable
group of professors who the out-
gave the University's prestige among
men of learning. President Gilman
has an unusual gift for telling an
incident with humor and directness.
This first paper is filled with good
stories of such men as Huxley,
George Peabody, Rowland, the
great scientist, Sylvester, etc.
Two more papers will continue in
this most entertaining manner, to
describe the growth of the univer-
sity idea, and the connection of
great men with it—something that
has not been done in recent times.

The most incisive and most keen-
ly analytical sketches of public men
which have been prepared during the
past two years have been those of
William Allen White. The hum-
orous little episode between Mr.
White and Mr. Thomas C. Platt is
still fresh in the public memory.
Mr. White's sketch for March ap-
pears in The Cosmopolitan and is on
the late President Harrison. It will
be read with wide interest by both
the opponents and friends of that
statesman.

As To Investigations.

The senate prison investigation com-
mittee finished its work at
Frankfort Thursday night and is a
report signed by all the Democrats
on the committee exonerated the
prison commissioners of all charges.
The two Republican committeemen
will offer a minority report, alleg-
ing some violation of prison rules
by minor employees. They will
make no charges against the com-
missioners.

The investigation seems to have
been thorough and searching. A
large number of witnesses were
called by those preferring the charges
and fully examined. The whole
matter seems to have originated
with one or two former employees at
the prison who had been discharged
for cause, and their allegations
were wholly unfounded or too tri-
vial for serious attention.

However, it was wise to hold this
investigation. It leaves the prison
management with no cloud whatever
over it. How much better it
would have been to have held a
similar investigation of the Hop-
kinsville asylum charges—better
for the commonwealth, the adminis-
tration and the welfare of the asy-
lum. The covering up of the Hop-
kinsville matter, the removal of
commissioners and the appointment
of others more friendly to the ac-
cused officers, does not remove the
stigma of those indictments in the
Christian circuit court. The whole
thing looks bad. It is shocking to
good morals. It leaves behind it
a suspicion of distrust. It smacks of
the white-washing practices of the
days of Dick Tateism in Kentucky.
The people cannot be expected to
stand for practices of this kind.

The prison management at
Frankfort being innocent courted
investigation; the asylum manage-
ment at Hopkinsville being evident-
ly guilty sought to evade investiga-
tion and succeeded through pecu-
liar methods. This is the long and
short of it.—Owensboro Messenger.

"I feel as if I should fly to pieces."
How often those words are on a
woman's lips. They express to the
utmost the nerve-racked condition
of the body, which makes life a
daily martyrdom.

[If this condition had come sud-
denly it would have been un-
bearable. But the transition was gradu-
al. A little more strain each day
on the nerve. A little more drain
each day of the vitality. Any wo-
man would be glad to be rid of such
a condition. Every woman tries to
be rid of it. Thousands of such
women have been cured by Dr.
Pierce's treatment with his "Fa-
vorite Prescription" when local
doctors had even failed to cure them.
"Favorite Prescription" contains no
opium, cocaine or other narcotic.

The distinction of the March
number of McClure's Magazine lies
no less in the remarkably well con-
sidered variety of its contents than
in the excellence of the individual
articles. Three very timely and
very different articles are Carl
Shyder's account of the wonderful
medical discoveries of Professor
Leob of Chicago University, which
two months ago started the whole
scientific world, and which are now
first clearly and soundly treated in
popular form; Julian Ralph's con-
cise review of Conan Doyle's great
book on the Buer War, just pub-
lished; and a character sketch by
Maurice Sherman Porter of "Denis
Mulvihill, Stockman and Mayor," the
new mayor of Bridgeport, Conn.,
and one of the most picturesque
figures in American political life
to-day.

An historical account, in vivid nar-
rative form, is Ida M. Tarbell's
story of the trial of Aaron Burr, a
dramatic and yet little known epi-
sode of American history.

Cancer Cured by Blood Balm.

ALL SKIN AND BLOOD DISEASES CURED.
Mr. M. L. Adams, Fredonia, Ala.,
took Botanic Blood Balm which ef-
fectually cured the cancer of the
nose and face. The sores healed
up perfectly. Many doctors had
given up hope as hopeless, hun-
dreds of ointments, salves, lotions,
suppurating, swelling, etc., have been
used by Blood Balm. Among
others, Mrs. B. M. Gurney, Warrior
Staud, Ala. Her nose and lip were
raw as beef, with offensive discharge
from the eating sore. Doctors ad-
vised cutting, but it failed. Blood
Balm healed the sores, and Mrs.
Gurney is as well as ever. Botanic
Blood Balm also cures eczema, itching
humors, and skin sores, loss
of hair, ulcers, offensive pimples, blood
poison, carbuncles, scrofula, rising
bumps on the skin and all blood
troubles. Druggists sell per large
bottle. Sample of Botanic Blood

PROPOSED EXTENSIONS.

New Road to Connect with Hop-
kinsville and Evansville
Division.

Sturgis Ky., Feb. 28.—This and
Crittenden counties are consid-
erably interested in the evidently au-
thoritative statement that the Illinois
Central has let the contract for an
extension from Eldorado to Cave-
Rock, Ill., and Marion, Ky., connect-
ing at the latter place with its Ev-
ansville and Hopkinsville division
and proposing to connect at Gracey
with a line to Clarksville, and from
there to purchase the new road
building into Nashville. The pro-
posed route of which is on the Charles-
ton, S. C.

This would give the Illinois Central
the most direct line from the South
to St. Louis. It is claimed that the
road will be ready for the handling
of the world's Fair traffic.

Supplementing the foregoing an-
nouncement is another that the L.
& N. Road will probably utilize its
old road-bed here and extend from
Providence crossing the Ohio near
Caseville, and tapping its Illinois
lines leading to St. Louis.

TALLEST MAN ON EARTH.

He is ten feet eleven inches in
Height.

Some statistics apparently out
done him in height. He is the
young French Canadian giant,
who bids fair to out rival the famous
one-eyed giant Polyphemus, of Ho-
mer's time, while he overtops by
several feet modern competitors.

Beaupeire, therefore, enjoys the
proud distinction of being the tall-
est man on earth. He is thirty
years old, tips the scales at 587
pounds and stands ten feet eleven
inches high, his hands measuring
nineteen inches, and his feet twen-
ty-four inches by twelve wide. A two-
yard tape measure barely encircles
his chest.

Each of his trousers legs can
contain the figures of two ordinary
persons, and there is sufficient
cloth in one of his suits to outfit ten
average men. The massive frame-
work of each of his outstretched
arms will bear the weight of three
athletes. A man five feet ten inches
by his side appears a mere pigmy.

One of the peculiarities about
Beaupeire is that his father and
mother were of ordinary size. From
youth he has been a great gymnast
and has given much time to athletic
sports.—New York Herald.

In Heavy Damage Suit Against
Railroad Company.

The transcript of the case of
Geo. S. Gilbert, administrator of
Sam Hooser, against the L. & N.
railroad company, has been filed in
the Federal Court at Nashville.
The suit was first brought at
Clarksville for \$10,000 damages.

The negro, Hooser, was killed
near Earlington about a year ago,
and it is alleged, by being violently
thrown from the car by one of the
railroad employees.

Riggins agrees to deliver same

A very curious bi-literal cipher
which has been discovered by Mrs.
Gallup running through the first
editions of Bacon's works, has ex-
cited wide interest in the literary
world. This cipher consists of two
in large variety the latest and best
combinations of these two letters in
groups of five constitute an alpha-
bet. These repetitions of a wrong-
font letter can not have been mat-
ters of chance. Whether placed
there by Lord Bacon or by the
printer, remains in doubt. If by the
printer, they relate a wonderful ro-
mance—the story of Queen Eliza-
beth's marriage to the Earl of Lei-
cester when both were confined in
the tower prior to the Queen's ac-
cession; the birth of two sons, of
whom Lord Bacon was the elder,
the Earl of Essex the other. Lord
Bacon considered himself the heir
to the throne of England. The bi-
literal cipher tells that Queen
Elizabeth condemned her own son,
the Earl of Essex, to death. The
Cosmopolitan for March contains an
article by Prof. Garret P. Service
fully reviewing this remarkable ro-
mance—it is concluded to have
been inserted by the printer—or
tragically if inserted by Lord Bacon.

Probably you know of cough medicines that relieve little coughs, all coughs, except deep ones! The medicine that has been curing the worst of deep coughs for sixty years is Ayer's Cherry Pectoral.

Three doses, one enough for an ordinary cold. Last night for instance, I was awake, and had no sleep, and I feel much better. J. C. AYER & Co., Lowell, Mass.

PROTEST

Of 10,000 Poles of Chicago Against Honor Shown Prince Henry.

Chicago, March 4.—While Prince Henry was receiving the plaudits and homage of the thousands gathered at the Auditorium and First Regiment armory, over 10,000 Poles met in secret session throughout the city last night and deplored the honor shown the German Emperor's brother. The meetings were under the auspices of the Polish National alliance, and were the climax of a series that have been held since the first announcement that Emperor William was to send his brother as his personal representative to America.

How to Cure the Grippe.

Remain quietly at home and take Chamberlain's Cough Remedy, as directed and a quick recovery is sure to follow. Taken to Evansville.

Mr. Grandison Greer, who has been an invalid for three weeks, was taken to Dr. Walker's infirmary at Evansville yesterday by Dr. Eager. The nature of Mr. Greer's trouble (impacted colon) has been so stubborn that it has refused to yield to the treatment ordinarily applied in such cases, and an operation has been deemed necessary.

WHEAT PROSPECTS.

Outlook Not Very Favorably In Kentucky and Tennessee.

The following extract, concerning the crop conditions for the month of February, is taken from the crop report sent out by the Weather Bureau at Washington:

The northern portion of winter wheat belt was generally well protected by snow during the month, and an improvement in the condition of winter wheat is indicated over the northern portions of Ohio, Indiana, Illinois and Missouri, the outlook being less favorable for the southern portions of these states and in Kentucky, Tennessee and Arkansas. The severe sleet storm near the close of January left a large portion of the Ohio Valley covered with ice, which remained on the ground for a considerable part of February, the effects of which it is feared will prove unfavorable. In Nebraska and Kansas the crop as a whole is in promising condition. In California the condition of wheat has materially improved, except in a few sections, where the rains came too late to save the early sowing. In Western Oregon the crop is in excellent condition, and it is generally promising in Eastern Oregon, where, however, considerable has been winter killed. In Washington the severe cold of the latter part of January caused serious injury in localities, but where not injured by cold it has made good growth.

La Grippe Quickly Cured.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe," says P. L. Hewitt, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can almost be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by all druggists.

WHO'S WHO?

Father and Son Marry Mother and Daughter.

Several years ago Salem Bennett, a widower of Weston, W. Va., married Miss Abbie Smith, the daughter of a widow. Last week Bennett's son, Markwood Bennett, married the widow, who is the mother of his father's wife. By the marriage Markwood Bennett becomes his own father-in-law and his own grandfather-in-law. Mrs. Markwood Bennett becomes the daughter-in-law of her own daughter, which is to say, she is her own granddaughter. Markwood's wife is Salem's daughter-in-law, as well as his own mother-in-law, while Salem is both the father and son-in-law of his own son. Salem's wife is both daughter and mother-in-law to her own mother, and is her own grandmother. If she has any children she will be both mother and grandmother to them, and they will be their brother Markwood's grandchildren. Markwood is not only his own grandfather, but is the grandfather of his brother and sister, and, if children are born to him he will be their great grandfather, as well as their father. Should children be born to both Salem and Markwood Bennett, the parents will probably take a week off to figure out the relationship between the babies.

HIGH OFFICIALS

Of the L. & N. Spend a Couple of Days in the City.

Capt. W. J. Dickinson, 3d Vice-President of the L. & N., Capt. Lee Howell, General Freight Agent, General Roadmaster Robinson, and John W. Logsdon, Division Superintendent, were in the city Tuesday and Wednesday. The gentlemen held their consultation at Hotel Latham, but the nature of their business was, of course, not made known to the public.

FAMILY TROUBLES

May Have Caused This Act of Self Destruction.

Victim Swore out Warrant Against Son-in-law and Trial Set For Day of Suicide.

Tradewater, March 3.—Mr. Geo. W. Lantrip committed suicide at his home near Castlebury church last Saturday morning at an early hour by taking carbolic acid; while he between his daughter, Mrs. T. M. Rose, and her husband, the immediate cause of his rash act is only a matter of conjecture. About four years ago T. M. Rose was married to Olive Lantrip. They lived together until about three months ago when they separated and Mrs. Rose instituted suit for divorce and alimony and the custody of her two daughters. A few weeks later, however, they met, talked the matter over and agreed to return to their home and live together. But they again separated and Mrs. Rose returned with her babies to her father's house. Her father, G. W. Lantrip, swore out a warrant of arrest against Mr. Rose, charging him with severely whipping Mrs. Rose, and her little sister. Mr. Rose hearing of the warrant went and surrendered to the authorities, and his trial was set for Friday, Feb. 21, but owing to the absence of the county attorney the trial was postponed until Saturday, March 1, and Saturday morning Mr. Lantrip arose and fed his stock very early, and after an early breakfast he went out, saying he would get in enough wood to do the family until he returned from the trial. After waiting a few moments for his return, some one went to the door and called for him when they found his prostrate form on the ground near the woodpile. Near neighbors were quickly summoned and he was carried to the house and laid on the bed, where he expired within a very few minutes.

Dr. Williams, of Crofton, was summoned by telephone. He detected the smell of acid on the corpse and found his lips were badly parched. An ounce bottle containing a small amount of acid was found near the woodpile. His cap had been stuck in a crevice in the wood pile and two pocket books containing about sixty-five dollars were found near by. The label on the bottle showed that the drug had been bought at Dawson Springs several days before and he had undoubtedly contemplated suicide for some time. It is generally believed that the trouble his daughter had gotten into was the immediate cause of his action. He was about 55 years old, had been twice married and leaves a wife and several small children. Interment at Castlebury church Sunday.

END-MEN

Furnish Feast of Fun With Own Creative Wit.

Negro minstrelsy has undergone a remarkable evolution in the past few years. The Richards & Pringle's Famous Georgia Minstrels that appear at Holland's Opera House March 8, matinee and night, is the most remarkable evidence of its many changes and stages of perfection it has attained under the wise management of American brains, pluck, energy and capital. Since the advent of this enterprising firm in this line of entertainment a new impetus has been given to it and to-day it is one of the most popular forms of amusement before the public. It cleverly caters to all tastes and ages and carefully avoids giving offense to any.

The love of good wholesome fun is an attribute of the American temperament, and on these lines the Richards & Pringle's big show is put together. It is a language intoxicant from start to finish, not one dull moment from the rise to the fall of the curtain; each act is different and no surfeit of any one act. Not a moment of mediocrity in the whole bill of entertainment. The acts are of a high standard and embrace singing, dancing, comedy, gymnastics, aerialists and quartets. A number of bright, original end men furnish a feast of fun with their own creative wit, among whom are the following well known comedians: Billy Kersand, Clarence Powell, Dick Thomas, Jas. Moore, Will Cooper, Charley Friday and many others. Tickets now on sale at Postal Telegraph office.

Danger of Colds and La Grippe.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It cures colds or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

THE ELKS

Will Outdo Themselves This Year in a Jubilee.

Arrangements Completed For Six Days of Revelry And Fun.

Nineteen hundred and one was a year off with the local Elks in the way of public entertainments, but this year they propose to make amends for the one past. As published in the last issue of this paper at their regular meeting it was determined by the order to hold a jubilee some time in the spring, the latter part of April or the first of May. A committee on preliminaries was appointed to report at the next called meeting. This meeting was held last Tuesday night, when the time was fixed. After a free discussion, many of those present being farmers, and at their suggestion it was deemed best to hold the jubilee from Monday, May 19 to 24 inclusive. This is the season of the year when the country people can best leave their farms and take part in the festivities. Money at that time will be plentiful and planted crops will be in a condition that will permit the farmers to rest up for a week.

At the meeting Tuesday night Judge Jas. Breathitt, C. S. Jarrett, Dr. A. E. Bentley, Sam Frankel, A. W. Henderson, S. J. Samuels, and T. J. Tate were appointed as chief conductors of the jubilee. These gentlemen are eminently qualified for the duties assigned them and will leave nothing undone to insure its success.

It is highly probable that Fourth street (old Broad) will be selected as the street on which the main features will be located. Messrs. Emmett Cooper, E. B. Long, T. J. Tate, J. T. Wall and Sam Frankel were appointed to solicit the privilege of the city council of using such streets as they may designate for the occasion.

Now that the old fashioned county fairs have "played out" all over the country, live, energetic men everywhere have hit upon this plan of annually attracting the people to the cities and towns. This is the third the Elks have held and it will surpass anything yet given.

Something like fifty contracts have already been signed, and anything else specially good that may be secured will be added to the already large list of attractions. The public is assured that nothing of an immoral character will be permitted in the city. A watchful eye will be kept on everything, and only such exhibits as a man can attend with his wife and children will be tolerated. It is the duty of everybody to lend aid and encouragement to the managers of the jubilee, and thus make it the leading event of the year.

HERNDON HAPPENINGS.

Herndon, Ky., March 4, 1902.

Mr. Burrows. We do not wish to impose upon good nature, but our social inclinations have been so warmed up by the spring sunshine, that we beg a short chat with you.

After the rough treatment of "Old Father Winter," who does not welcome March with her coquettish freaks, smiling upon her artistic lover, one day with a bright sunny love that penetrates to the very depths of his frozen old heart, causing tears of gladness to trickle down his icy cheek, but alas, the coy maiden no sooner wins the love of winter than she greets him with a torrent of reproaches, and with a loud wailing wind is off and away, leaving us to realize that "something beautiful" has vanished.

Our residents are very much interested in the incorporation of our town, which would be a great protection to the women and children of this place.

Prayer-meeting will open again Wednesday night. Let's all come out and have a good meeting. Though the evening should be black, we will not contract any more cold by going to prayer-meeting than we would by going to "Blue Mountain."

The Herndon ladies are contemplating an organization for the advancement of artistic needle-work. It will be called the "Happy Hour Circle."

Miss Mamie Dickenson, one of South Christian's most popular young teachers, will open a spring term at the Jim Gary school-house Monday. Isn't there some one near Casky whose heart will beat faster? It is true in the spring that a young man's fancy turns to thoughts of love, for ere the grey-eyed morn half opens her drowsy eyes, she hears, or seems to hear, the awaking echo of "I don't know why I love you, but I do-o-o-o," and "it is all because they make those Goo Goo eyes." Sing on, happy hearts, and may you never know a sadder melody.

Miss Wilmoth Pace is visiting near Pee Dee.

Thanking you for your kind attention, Mr. Editor, and wishing you much success in your valuable paper, we remain, yours respectfully, U. S. & Co.

Pneumonia Can Be Prevented.

This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. This remedy was extensively used during the epidemics of la grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. For sale by all druggists.

Twenty-three Years.

In view of the fact that the KENTUCKIAN has wound up its 23rd year of success, it is not out of place to say a word to its friends. The KENTUCKIAN has long since become a fixture of Hopkinsville.

All Newspaper Records in the City Have Been Broken by it.

No other paper ever published in Hopkinsville can point to a record of more than 20 years, with each year's business better than the one before. How many papers in that time have tried to run in Hopkinsville and fallen by the wayside? How many have failed to reach the goal?

An ocean cable 10,000 miles long would not serve the purpose for which it was designed if it fell short within twenty feet of the receiving-instrument.

It isn't the first end that counts. It's the last end. The start is nothing. Every contestant starts in a race, but how many finish? Almost any horse can begin in a race. Wish a few trials, ever an old plug may get away from the wire all right, but it's the coming under the wire for the last time that counts, it's being in the race to the finish that is alone valuable.

A great many things in this world are made to begin well enough, but they fall short.

The KENTUCKIAN as an advertising medium has never fallen short. As a news medium, occupying a field of its own choosing, it has for 20 years stood squarely upon its merits and succeeded

WHERE OTHERS FAILED.

Advertisers should bear this in mind. Money spent for Newspaper Advertising is an investment. It is not how much the advertising costs, but how large will be the returns. The mission of Newspaper Advertising is to Sell Goods. When the careful merchant has decided the important question as to the right medium, then, by attractive display advertising in that medium, he will inevitably increase sales. This result follows as surely as day follows night. The

Kentuckian

is the medium that pays, because it reaches the people. It has among its patrons advertisers who have been with it without a break for 12 to 15 years. It numbers the very best class of advertisers in their respective lines of business.

If you are not already a customer of ours, we want to make you one, and your advertising ONE OF OUR SPECIALTIES.

Newspaper advertising has become an indispensable adjunct to business. You need the advertising, we have the space to sell. Come less do business with each other.

And to the reading public, remember we cover the entire news field twice a week for only \$2 a year. At least one half of the news we give is in advance of other publications, because our facilities for gathering out-of-town news are equalled by none. If your time is out renew promptly. If you have never taken the KENTUCKIAN, try it for 1902.

ZOOLOGICAL ENIGMA.

Black Ape Creates Big Stir with His Jungle Jargon.

Writes the East African Baboons in the New York Zoo by a certain Series of Sounds Which Convey Tantalizing Suggestion.

"Hiss, Pek-kick, Hu-huh."

This from the vicious little blackape in the monkey house at the New York zoological park. Instantly there is a rumble in the cage of the East African baboons opposite. They throw themselves against their wire bars in a vain attempt to get at the wicked little simian, who sits saucily grinning at them from the safety of his cage.

The strangest part of it all is that the black ape's voice is not at all loud. What he says is in a low tone. The other monkeys, apes and chimpanzees may laugh, yell, chatter or whisper among themselves to their heart's content and the ugly East African baboons pay no attention. The black ape talks with his neighbors by the hour and there is nothing doing. But when time hangs heavily on his hands and the grotesque people of the monkey house get sleepy, he looks across at the baboons and exclaims: "Hiss, Pek-kick, Hu-huh." And there is a row on at once.

Now one of the policemen has limited the speech so well that he can occasion the same rumble in the baboon cage.

What all the keepers at the zoo now want to know is: "What is the correct translation of 'hiss, pek-kick, hu-huh' in East African jungle talk?"

It was suggested the other day that Prof. Garner be asked to visit the garden and translate the jargon. One thing has been agreed on, that the sentence refers to something about race, religion or politics, for the baboons act precisely like men when some one yells at them something derogatory of their views on one of these important subjects.

MOVING SIDEWALK URGED.

Novel Underground System Which Has Been Suggested to Relieve the Streets of Paris.

A novel plan to relieve the congested condition of Paris streets has just been submitted at a meeting of prominent engineers which was held to discuss further improvements in public transportation. M. Cassalonga, a well-known civil engineer, suggested that an underground moving sidewalk similar to that at the Paris exposition of 1900, but much larger, be constructed. According to his plan there would be four platforms, each moving at a different rate of speed from the others, the fastest going at the rate of 13 miles an hour.

M. Cassalonga convinced his hearers that such a scheme would be cheaper than an electric underground railway and that it would multiply greatly the accommodation of the public. He said to the correspondent of the Chicago Daily News:

"Part of the platform might be given up to the use of heavy teams, the city thus gaining both from an aesthetic and a pecuniary point of view, since the paving department would save hundreds of thousands of francs annually by the reduction of wear on the street surfaces. I am sure also that the public would prefer the rolling sidewalk to stuff, cars, not to mention the elimination of danger from collisions."

Plans and estimates of the curious undertaking were submitted to the traction members of the municipal council, members of which reported that they were vastly attracted by the idea, provided electric power for it would not prove too costly.

PRETTY COEDS FAST.

Students of University of Iowa Abstate from Food for Three Days on a Wager.

Miss Helen Louise Morton, of Iowa Falls, Ia.; Miss Alice Glebeat, Peters, of Ottumwa, and Miss Mabel V. Hoffman, of Muscatine, pretty coeds of the University of Iowa, engaged in a 3 1/2 days' fast. They drank nothing but water during the time they were fasting, and by going the allotted length of time without eating they are to receive 10 pounds of chocolate creams. The girls reported that "fasting is all right after you get used to it," and the young men who made the wager with the young women have ordered the candy and are ready to pay their bet.

The young women spent most of the second day in bed to stave off the pangs of hunger by sleep and inaction, and they spent the entire time of the third day sleeping. At midnight they had a grand feast.

Aeronaut's Daring Proposition.

A dispatch to the New York Herald from Paris says: The journals announce that M. Capazza, the first aeronaut who crossed the Mediterranean from Marseilles to Corica, is about to undertake a most daring journey. M. Capazza, when interviewed, said: "The project which I desire to carry out and which I have studied with M. Elisee Reclus and Baron Berger, the lecturer on physical geography at the Sorbonne, is that of traveling the Atlantic in a balloon, starting from the Canaries and landing at the southeast of Panama. As to my steering balloon, I hope to have the constructed next year."

And Uncle Sam Pays the Bill. It will be no fun to dig the isthmian canal, says the Chicago Tribune. There will be a lot of hard dredging about it.
